

# Core Services

Our Chartered Security Professionals provide critical advice and guidance on all security consultancy and advisory matters, including current and emerging threat assessments, policy review, and the development of security master planning. Our consultants can quality assure existing operations, understanding how to mitigate risks to people, assets and locations using our experience and knowledge. People, property, infrastructure, the delivery of services, and information assets are potentially vulnerable to a range of security threats that could result in physical, economic or reputational harm.

## Close Protection

---

We carefully select our personal and close protection personnel to work with and support our clients, to create a bespoke security strategy to enable known threats and risks are mitigated and those unknown threats can be responded to in a spontaneous and dynamic manner, thus allowing our principals carry on their lives with the minimum amount of disruption. Our personnel are able to work across the UK and the globe in all theaters of operation.

## Security Teams

---

Our residential security teams are able to support any existing infrastructure and technical support to enhance the response to criminality or unwarranted/uninvited intrusion onto private properties in urban or rural settings. Our team sizes are determined not only by the size of the property, but also the wishes of our clients in response to the current threats posed. Our diverse teams of trained men and women are chosen not only for their professionalism and operational ability, but also their skills to work well with family offices and property owners. Their pedigree speaks for itself.

## Security Managers

---

Our Security managers add value to any busy family office, business, family estate or household by their expert ability to manage the safety and security of all family members staff and visitors. We are also able to task our managers across the globe within our overseas operations ranging from homes and businesses to large scale media and film productions.

## Residential Security Surveys

---

We survey client's homes ranging from country estates and villas to town and city penthouses and apartments. Our surveys are concise and readable and we will liaise with approved installers to efficiently upgrade home security measures.

## Business Risk Assessments

---

Risk to a business comes from more than just break-ins. Our assessments look at everything from communications policy and reputation management to cyber security, online exposure and the safety of staff operating in hostile environments. We can help to mitigate threats to a business from any angle.

## TSCM Bug Sweeps

---

Our TSCM 'bug sweep' teams use the latest technology combined with years of technical experience to identify physical listening and monitoring devices. Our work can ensure that you, your family and your business have total privacy wherever you are.

## Investigations

---

Operating globally, we offer a wide range of investigative services. Our team is composed of highly experienced professionals, with backgrounds in the military, law enforcement and private sector. We use traditional investigation techniques and cutting-edge technology to ensure we deliver the best possible services to our clients.

## Surveillance

---

Surveillance evidence has to be gathered in accordance with strict guidelines to ensure it is fully admissible in court. We fully understand the laws and regulations that apply to surveillance and the gathering of information. Our surveillance operatives are highly experienced with backgrounds in the military, law enforcement and the private sector allowing us to choose from a diverse and unique set of skills to build the right team for the clients needs.

## Training

---
